FIT TO FLY CERTIFICATE

This letter is to certify that the patient named below had a COVID-19 antigen test performed at GP Matters to detect SARS CoV-2.

Patient name: [REDACTED]
Certificate Date: 29/07/2021
Swab sample taken: 29/07/2021 at 1:30 pm
Date of birth: [REDACTED]
Passport Number: [REDACTED]

COVID-19 Antigen Test Result: NOT DETECTED / NEGATIVE RESULT

This result was obtained using a SARS-CoV-2 rapid antigen detection test (RATs) for the qualitative detection of SARS-CoV-2 antigen in a nasal swab. The test is CE marked with Sensitivity: 96.1%, Specificity: 99.0% and accuracy 98.3%.

GP Matters is a government approved healthcare institution as per the registration with Healthcare Improvement Scotland (number 00702), the independent regulator of health and social care in Scotland.

Fit to Fly symptom verification

Upon systemic enquiry, the patient:

1- has not had any recent symptoms typically associated with COVID-19, including high fever, cough, shortness of breath, muscle pain, headache, sore throat or disturbance in sense of smell/taste.

2 - is not aware of coming into contact with a case of COVID-19.

Based on this report, the patient did not have any evidence of an active COVID-19 infection on the test date.

I can therefore confirm that based on the above information, this patient did not have any evidence of an active COVID-19 infection and is **FIT TO FLY**.

Yours sincerely,

Dr Carole McAlister
MBChB DRCOG MRCGP
GMC Reg number: 3275151
